FS-1 ISSUE #275: THE SORT-OF LANDMARK

PREVIEWS reaches its 275th issue this month, and although it's not quite as cool as an even-numbered landmark (issue #200, #300), we're still celebrating this as a sort-of landmark issue! So, in honor of this, the two hundred and seventy-fifth issue of our catalog, we take a look back at some of comics' classic (and not-so-classic) 275th issues.

What is *PREVIEWS*?

PREVIEWS is part magazine, part catalog—a "mag-alog" of all comics and pop-culture merchandise found at your local comic shop.

We've broken down the product listings by easy-to-understand sections: Comics & Graphic Novels; Books; Trading Cards; Toys, Statues & Models, and more.

Each month, you'll find detailed listings for almost every comic book and pop-culture product that will be available in comic shops in 2 months. So, if you're looking at the April issue of ***PREVIEWS***, most items will be in comic shops sometime in June.

EDITOR'S *note*

23 YEARS LATER...

This month marks the 23rd year of publishing ***PREVIEWS***. Since 1988, we've brought you, our beloved and devoted readers, the most eclectic mix of comics, books, games, toys, and other forms of "nerd chow" that keep fanboys (and fangirls) like you and me happily "fed" each and every month!

This August cover-dated issue is our 275th issue, and as much as I would have liked to break out all of the publishing bells and whistles we employed during the boom times of the '90s, the times they have a-changed, and it wasn't meant to be. But we share a long, well-established precedent with many comics and publications which made it to the "sort-of" landmark of 275 issues… and didn't make much of a big deal about it. In fact, you can check out a few in this month's feature, located on the "FlipSide" of this issue.

Meanwhile, as we're putting the finishing touches on this issue (it's mid-July as I write this), we're also performing our last-minute chores before the big show in San Diego: **Comic Con**!

We'll once again be set up in the massive San Diego Convention Center, showing off the latest and greatest products offered — and to be offered — in ***PREVIEWS***! Our expansive displays have always been the ultimate experience in tantalization and despair, as we're only *showing* stuff off, not *selling*… We leave *that* to your local comics shop!

And I'll once again be roaming the convention floor with my buddy Chris Cade, fellow *Comics & Comix* veteran from Sacramento. We've got our want lists ready, a thirst for entertainment *and* adult beverages, and nothing to do but nerd-out for the week! It should be awesome.

So until next month, stay cool and enjoy the summer while it lasts, because unless you're a Beach Boy, summer is never truly "endless", and you have to squeeze as much fun out of the days ahead as possible!

Your Pal @ ***PREVIEWS***,

Mart

Marty

This month's featured creators is...
SCOTT McCLOUD

Scott McCloud has been making comics professionally since 1984. His first series ***Zot!*** garnered multiple Harvey and Eisner Award nominations. He began the international *24-Hour Comics* movement, wrote the Bill of Rights for Comics Creators, and was one of the very first American comics artists to incorporate Manga influences into his work — nearly 20 years before Manga exploded onto the American comics industry.

McCloud's books, ***Understanding Comics***, ***Reinventing Comics***, and ***Making Comics***, have inspired generations of readers in over 15 languages. His theories have been influential in game, web, and interface design and he's lectured on comics and digital media at Google, MIT, Pixar, Stanford and Sony. Frank Miller (*Sin City*, *300*) has described McCloud as *"...just about the smartest guy in comics."* His online comics can be found at scottmccloud.com.

McCloud is working on a massive graphic novel project for First Second Books (working title: ***The Sculptor***).

For your reading pleasure, Scott McCloud recommends these personal favorites:

Right now, I'm especially encouraged by the rise of young adult comics by women. Some of my favorite new artists are creating in this space now, building an army of young readers who'll change the face of comics in the coming years. Raina Telgemeier's dental drama ***Smile*** (DEC090873) is a model for comics about everyday life that hits readers where they live. Hope Larson's ***Mercury*** (OCT091070) has all the richness of the best young adult fiction (and she's now adapting *A Wrinkle in Time*—wow!). And Vera Brosgol's long-anticipated ***Anya's Ghost*** (MAR111153) is my pick for best book of the year. This is an audience hungry for great stories; and great storytellers are taking up the challenge!

THE X-MEN FACE AN UNKNOWABLE FUTURE IN *X-MEN: REGENESIS*

How does someone choose between friends, someone that you knew from childhood or young adulthood, someone that you fought alongside for years, someone that you have shared life-and-death experiences with time and again? What does one do when the bonds of friendship become so irrevocably strained that they break? How does one handle it when mutual friends choose other friends over you? The X-Men will find themselves wrestling with these questions, and many others, as Marvel Comics' mutants wrestle with the fallout of Jason Aaron's *X-Men: Schism* this October, beginning with the *X-Men: Regenesis* one-shot!

Written by *Uncanny X-Men* writer Kieron Gillen with art by *Shadowland* artist Billy Tan, *X-Men: Regenesis* explores the aftermath of the conflict at the heart of *X-Men: Schism* – the personal and ideological differences between Cyclops and Wolverine in their approach to achieving Charles Xavier's dreams of mutant equality in a hostile world. Now, with *Schism* concluded, the world's mutant population must choose which side to support and which *friendship* to embrace. Friends will ask each other, "Who will you follow?" and turn their backs on one another, rending the X-Men in two.

Regenesis not only upsets the *status quo* of the Marvel Universe's mutant population, but it sets the stage for the next chapter in the X-Men saga. Longtime *Wolverine* writer Jason Aaron and fan-favorite artist Chris Bachalo follows *Schism* with an X-Men team led by the fan-favorite berserker in October's *Wolverine and the X-Men* #1, while Gillen picks up with those who chose not to follow Wolverine's leadership in November's historic *Uncanny X-Men* #1, with art from Carlos Pacheco and Greg Land.

X-Men: Schism tore the leadership of the X-Men apart. *X-Men: Regenesis* begins to pick up the pieces. Join the X-Men as *X-Men: Regenesis* forces each mutant to ask, "Who will you follow?" And ask yourself, how would you answer the question? The groundwork is laid for the future of the X-Men this October, and to understand that future no mutant fan will want to miss Kieron Gillen and Billy Tan's *X-Men: Regenesis!*

In the 1960s and 1970s, comic books used to carry ads for wild things — x-ray glasses, undersea monkeys, and body-building courses. What if someone replied to one of these ads? What would they get? HONE YOUR CREATIVE SKILLS WITH *PREVIEWS*' HOW TO DRAW COMICS MONTH

This month, ***PREVIEWS*** pays homage to the do-it-yourself spirit that launched the comics industry. Where would we be today if two young lads named Jerry and Joe didn't create their own comic book? Two guys — one a writer, the other an artist — launched a genre and forged a legend. Who will be the next Siegel and Shuster? Who will create the next comic book legend?

Many creators attempt to do just that each month. Some self-publish their own comics, some create fanzines and chapbooks. Some publish webcomics. Some of these creators are noticed by publishers large or small. Some of their creations catch on with the public, and some fail. Irregardless of where they wind up on the sales charts, however, these creators all started in the same place: at the drawing board.

Like any skill, creating comic books at any stage of the process — whether writing, penciling, inking, lettering, or coloring — requires practice and technique. Creators, at any skill level, can take advantage of ***PREVIEWS***' How To Draw Month which spotlights books that will help you become a better comics creator. Whether you choose from books like Quayside Publishing's *How to Draw Fantasy Style* and *How to Draw Steampunk*, Krause Publications' *Bryan Hitch's Ultimate Comics Studio*, WW Norton's *Will Eisner's Graphic Storytelling and Visual Narrative*, Vanguard Productions' *Joe Kubert's How to Draw from Life*, Harper Collins' *Understanding Comics*, *Stan Lee's How to Write Comics* in the Dynamite Entertainment section, or any of the dozens more books featured with the "How to Draw" icon throughout the catalog, you will find tips and techniques that will help you to become the best comics creator you can be.

Pick up one of these books and hone your craft as ***PREVIEWS*** celebrates the do-it-yourself spirit this month with our annual How to Draw Month!

In the 23rd-century, the United Federation of Planets is defended from its enemies, including the Klingon Empire and the Gorn Hegemony, by the valiant officers of Starfleet, best personified by Captain James Kirk, Mr. Spock, and crew of the starship *Enterprise*. In the 31st-century, the United Planets are protected from the Dominion and the Khund by the Legion of Super-Heroes, with a membership boasting of Brainiac-5 and Saturn Girl and led by Cosmic Boy. This October, two legendary teams of heroes will join forces for one transtemporal adventure as IDW Publishing and DC Comics join forces for the *Star Trek/Legion of Super-Heroes* crossover!

The science-fiction event that *Star Trek* and *Legion* fans have hoped for is finally here as best-selling science-fiction novelist Chris Roberson, author of the *Star Trek* novel *Brave New World*, and veteran *Star Trek* and *Legion* artist Jeffrey Moy take the helm for a crossover so epic that it takes six issues to tell! Plus, classic Legion artists Keith Giffen and Phil Jimenez provide covers for the first issue, which finds the Legion and the *Enterprise* crew lost in time — and lost in the multiverse!

RAGE AGAINST THE MACHINE TOM MORELLO'S ALTER EGO EXPOSED WITH *ORCHID* #1

Comic books written by renowned musical artists are becoming the new trend. With titles such as *The Umbrella Academy*, written by My Chemical Romance's Gerard Way, and *Kill Audio* by Claudio Sanchez of Coheed and Cambria, it was only a matter of time before a new one arrived. And arrive it did, with a splash, at this year's San Diego Comic-Con!

Though more and more comics written by musicians are materializing, *Orchid,* as seen during SDCC, is most certainly an innovative masterpiece. Written by acclaimed guitarist Tom Morello of Rage Against the Machine, Audioslave, and the Nightwatchmen, *Orchid* chronicles the events of a world much stranger and dangerous than ours. In it we follow the exploits of a teenage prostitute as she fulfills a destiny far greater than the role she plays in her post=apocalyptic society.

To compliment Morello's imaginative foray into the comic world, *Orchid* is illustrated by acclaimed artist Scott Hepburn, most known for his art in *Star Wars: Knights of the Old Republic*. With gorgeous artistry and a lyrical narrative, Orchid is one of Dark Horse's most anticipated publications this fall.

Known for his heavy metal punk guitar riffs and hip hop inspired sounds, Morello has amassed a huge following of fans. Even though he's turned to writing, Morello is a musician till the end, and has incorporated that into *Orchid*. Fans will be pleased to know that with each new issue, Morello will be creating a brand new song to accompany it! And to compliment the gritty candid feel of the upcoming comic, best known and influential street artist Shepard Fairey has created a variant cover.

With so much talent and creativity brought to the table on this, Dark Horse's *Orchid* is going to be, without a doubt, number one with a bullet!

MORELLO ISN'T JUST JUST A MUSICIAN, HE'S A COMIC WRITER – AND ORCHID WILL SHOW YOU THE BREADTH OF HIS CREATIVE VISION!

This November, Diamond Select Toys brings the altered characters of *Age of X* to your Minimates collection with the *Marvel Minimates: Age of X Box Set*. In addition to mutant leader Magneto and Gambit, collectors will find Legacy and Basilisk, better known in the 616 reality as Rogue and Cyclops! CELEBRATING 25 YEARS

One of the things about being an obsessive comics collector (is that redundant?) is that you remember *everything*. And one of the things I remember well is hitting the comics shop and the convention circuit during a crazy time: the black-and-white comics explosion of the 1980s, when dozens of new publishers sprang up.

In 1993, Dark Horse released *Star Wars: Dark Empire* #1. *Star Wars* had been an important part of my own collecting history, and I'd been longing to see new comics for years. And here was Dark Horse with a glossy, full-color series that broke new ground and revived the franchise for comics. This was no survivor from the small-press glut—this was a major player with the chops to handle one of the biggest franchises of all!

My interest in comics grew into a career writing magazines and books about comics, where I got to meet the people behind the publications at Dark Horse; always, I'd kept an interested eye on *Star Wars* and its other licensed titles. After I began writing comics myself in the middle of the last decade, I was thrilled to get the opportunity to pitch Dark Horse—which led to a nine-volume run on *Star Wars: Knights of the Old Republic*, the new *Star Wars: Knight Errant*, and now *Mass Effect: Invasion*.

Mass Effect joins a long tradition of Dark Horse tie-in comics—a tradition of working hand in glove with the creators of the parent properties. Our comics aren't just another licensed product, but rather an integral part of the *Mass Effect* universe, with myself and artist Omar Francia collaborating with no less than the lead designer on the video game, Mac Walters. What happens in the *Mass Effect* comics *counts*. We've already shown the search for Commander Shepard's body in *Redemption* and the Illusive Man's origin in *Evolution*. This October, in *Invasion*, we show an important prelude to the *Mass Effect 3* game: the dramatic fate of the colossal space station Omega!

For 25 years, Dark Horse has been telling stories that matter. With *Mass Effect: Invasion*, we're keeping the tradition going. Here's to another quarter century!

PANEL 1

Issues 17 through 20 are subheaded "Dream Country."

PANEL 2

According to the *Encyclopædia Britannica* (11th Ed.), "most ruminants [goats, cows, camels, etc.] swallow masses of hairs, and these, by the rotary action of the paunch, are aggregated into peculiar dense, rounded balls which are occasionally discharged from the mouth and are known as 'hair-balls' or 'bezoars.'" The term "bezoar" is now used to apply to masses formed from various materials—for example, indigestible plants may be the basis of a bezoar in some animals. A "trichobezoar" is one made of hair. Bezoars reputedly had power to absorb poisons and were widely sought for this purpose, and the word "bezoar" is, as Erasmus Fry says, at 17.449.3, below, rooted in the Persian word *padzahr*, meaning protection from poisons.

According to *The Standard Dictionary of Folklore, Mythology and Legend*, by mid-18th century, medicinal bezoars sold for fifty times the price of emeralds. An early British legal doctrine, *caveat emptor* ("let the buyer beware"), stems from a case involving a disgruntled buyer of a bezoar (*Chandelor v. Lopus*, 79 Eng. Rep. 3 (Cro. Jac. 4, Eng. Ct. Exch. 1603)).

PANEL 4

The "Rapunzel syndrome" is a popular name for the extremely rare occurrence of an intestinal blockage caused by a trichobezoar, the result of hair-eating (tricophagia) and requiring surgical removal of the blockage. Because the problem occurs most commonly among young girls, it takes its name from the fairy tale of Rapunzel, whose long hair was let down to permit her lover to ascend the tower in which she was imprisoned.

MAY, 1986
SO WHAT IS IT? IT SMELLS QUITE DISGUSTING.
I DON'T HAVE ANY IDEA.
IT'S WHAT YOU WERE ASKING FOR. IT'S A BEZOAR.
HANG ON, I THOUGHT THEY WERE LIKE, PRECIOUS STONES?
MOST OF THEM ARE.
THIS IS A TRICHOBEZOAR-- IT'S MADE OF HAIR. I CUT IT OUT OF A YOUNG WOMAN'S STOMACH THIS AFTERNOON. LOVELY LONG HAIR SHE HAD. TROUBLE WAS, SHE'D BEEN SUCKING IT, CHEWING IT--SWALLOWING THE HAIRS.
MUST'VE BEEN DOING IT FOR YEARS.
TECHNICALLY THAT'S KNOWN AS THE RAPUNZEL SYNDROME. ANYWAY, IT'S A BEZOAR. MISSION ACCOMPLISHED.
IT'S DISGUSTING. BUT THANKS. WHAT DO I OWE YOU, FELIX?
OH, NOTHING. IT WOULD ONLY HAVE BEEN INCINERATED, OR POPPED INTO A JAR FOR STUDENTS TO STARE AT. JUST DON'T TELL ANYONE WHERE YOU GOT IT.
AND, UM, I WAS WONDERING IF YOU'D SIGN THIS FOR ME?
SURE. NO PROBLEM.

Bill Compton is on his own, investigating the recent Hep-D outbreak in New Orleans' vampire community--and the only link between the victims of the debilitating blood disorder and an 800-year old vampire serial killer is a New Orleans police detective who hates vampires. But it's Eric Northman who makes a discovery about the serial killer's identity that blows the case wide open. And Sookie Stackhouse is in the middle. Again. Back in Bon Temps, what happens in Fangtasia stays in Fangtasia, especially when Lafayette's behind the bar.

The front matter is profusely illustrated with rare ephemera and flawless reproductions of **Powell's** original art. *Bob Powell's Terror* prints a generous amount of horror comic stories carefully scanned and reproduced from vintage horror-era comics, many of them quite rare and expensive–if you could even find them!

OCTOBER 5
32 PAGES / FC / M
$3.99

On February 13, 1968, Lieutenant Tommy Blake led a five-man fire team into the deep jungles of Vietnam to investigate the sudden silence of a deep-cover listening post. What they found, far from the relative safety of tiny firebase Aries, hidden by the shadows of an enemy-infested rainforest and buried in the heart of a darkness known as "Indian Country" is a brutal story of violence and horror. The hungry dead have risen in the war torn hell of Vietnam and there are zombies in the razorwire…

So save a bullet for yourself.

Horror masters **MARK KIDWELL**, **NAT JONES** and **JAY FOTOS** are proud to present the deluxe, "re-mastered" version of their 2006 cult hit tale of military horror: '68. Re-presented in a single-issue format matching the book's original release, this powerful one-shot story meshes seamlessly with the continuity of the new, ongoing horror comic series and brings the "missing chapter" to a whole new generation of rabid readers.

The Someday Funnies is the long-awaited collection of comic strips created in the early 1970s by world-famous artists and writers such as C. C. Beck, René Goscinny, Harvey Kurtzman, Jack Kirby, Moebius, Art Spiegelman, and Gahan Wilson. What started out as a special insert for *Rolling Stone* took on a life of its own as writer/editor Michel Choquette traveled the world, commissioning this visual chronicle of the 1960s, only to find himself without a publishing partner or the financial support to continue. Forty years later, readers finally get to experience this legendary anthology as Choquette celebrates the birth, death, and resurrection of *The Someday Funnies* — 129 previously unpublished strips by 169 writers and artists. RAVANA
ROAR OF THE DEMON KING

ALI BABA & THE FORTY THIEVES RELOADED GN

(W) Poulomi Mukherjee (A) Amit Tayal

Ali Baba's life was far from fantastic — a small house in the poorest part of Mumbai, a loving son, and his own autorickshaw. Until one day, he accidentally stumbles upon the secret stash of a gang of forty thieves. What follows is a storm that changes his life completely. One little dip into the pile, and Ali Baba finds that the robbers aren't ones to take things lightly. They are dangerous, armed, and cunning. And while Ali Baba himself isn't a greedy man, the secret doesn't stay with him! The classic tale of Ali Baba and the Forty Thieves from *The Arabian Nights* is recast in contemporary times. RAVANA: ROAR OF THE DEMON KING GN

(W) Abhimanyu Singh Sisodia

The demon-king Ravana, born of a union between the holiest of mortals and a demon princess, has risen from an obscure beginning at a hermitage to conquer not just hell but heaven, too. No less than a god to his own people, he is the sheer embodiment of evil to his enemies. This arrogant demon brooks no hindrance to snatching his heart's desire, and his terror seems unstoppable to gods and humans alike. But he makes a mistake when he abducts the wife of Lord Rama, the exiled divine ruler of Ayodhya. (STK449392) (C: 0-1-2)

KID FRIENDLY

As the 19th-century wound down, a public inspired by Jules Verne's novel *Around the World in Eighty Days* clamored for intrepid adventure. The challenge of circumnavigating the globe as no one ever had before attracted the fearless in droves. In 1884, former miner Thomas Stevens made the journey on a bicycle. In 1889, pioneer reporter Nellie Bly embarked on a global race against time. And in 1895, retired sea captain Joshua Slocum set sail on a thirty-six-foot sloop, braving pirates and treacherous seas to become the first person to sail around the world alone. Acclaimed graphic novelist Matt Phelan weaves a trio of epic journeys into a single bold tale of three visionaries. (STK449804) (C: 0-1-1)

For Eddard Stark, Lord of Winterfell and Warden of the North, a new role now beckons: Hand of the King—a position of power second only to his majesty himself. But is a life at court, in luxurious King's Landing, any life for a hardened man of action like Stark? Is the king's invitation an honor he can refuse—or a mandate he cannot ignore, when faced with shocking revelations of treachery on high?

Hark! A Vagrant is an uproarious romp through history and literature seen through the sharp, contemporary lens of *New Yorker* cartoonist and comics-sensation Kate Beaton. No era nor tome is left unscathed as Beaton rightly skewers the Western World's revolutionaries, leaders, sycophants, and suffragists while equally honing her wit on the hapless heroes, heroines, and villains of the best-loved fiction. *Hark! A Vagrant* features sexy Batman, the true stories behind classic Nancy Drew covers, and Queen Elizabeth doing the albatross. In just four years, Beaton has taken the comics world by storm with her non sequiturs, cheeky comebacks, and irreverent punch lines. HARK A VAGRANT!

DRAWN & QUARTERLY

I want Kate Beaton to teach me history. All the history. She has done for great historical and literary characters what *Penny Arcade* did for gaming, what *XKCD* did for statistics, what *Axe Cop* did for cops with axes.

Hark A Vagrant! collects the majority of Ms. Beaton's online comics along with a handful of new gems in a delightful shelf-friendly format. Her cartoony doodles of Napoleon and the Bronte Sisters pack a punch in playful sequentials of anywhere from four to eight panels. Ghenghis Khan rationalizes his transcontinental slaughter. Matthew Henson taunts a frostbitten, sled-bound Robert Peary at the North Pole. Sherlock Holmes replaces dashing, military-man Watson with bumbling, jam-loving Watson in all capers effective immediately. Oh yes.

Your heart, the part of you that remembers lines from Macbeth and laughs at Frida Kahlo jokes, should be turning cartwheels. Please yourself and check out Ms. Beaton's wonderful works online, but remember, you can also curl up with your very own copy of *Hark A Vagrant* under a warm lamp or loan it to friends, and that would be wonderful, wouldn't it?

MEDITERRANEA

G G STUDIOS

Hot chicks, skimpy clothes, flying bots and swinging swords: time for another issue of *Mediterranea*! Alonisso's epic story continues in an Atlantis-esque setting.

Despite all the scantly clad, voluptuous ladies running around and loosing clothing, this series is **not** rated Mature. One does come to wonder how many conveniently placed falling scrolls, swinging swords, billowing cloaks and outstretched hands can be used to cover boobs. Vivid colors, gorgeous backgrounds, and meticulous attention to detail make each panel a feast for the eye. This Italian comic is one of my favorites from GG Studios. If you have not yet picked *Mediterranea* up, what are you waiting for?

LEGEND OF OZ: THE WICKED WEST #1

BIG DOG INK

Frank Baum's Oz reimagined as a western? Public domain characters have enjoyed a lot of play in recent years, but it's still rare to come by a perfect fit like this one. *Wicked West*'s Dorothy is a gorgeous, tough-as-nails cowgirl sporting ruby-handled revolvers, downing strong drinks and tussling with flying monkeys in bar fights. She and her horse Toto just want to get out of dodge, but the golden road that should point them in the right direction has been turned up and stolen, brick by brick. Now Dorothy Gale is traveling from town to town, tracking the pilfered gold and stirring up trouble along the way. Dorothy may be a crack shot, but if she's going to reach the Emerald City alive, she could probably use some help...

Big Dog Ink turns out impressively strong work for a publisher of its size, and this new series promises to be their most entertaining to date. If you don't pick up this book, you're missing out on a lot of fun.

SNARKED #1

BOOM! STUDIOS/KABOOM!

Let me be the first to say that I'm so bored of *Alice in Wonderland*. *'Oh, the little blond child Alice follows the white rabbit.' 'Oh, the twisted version of little Alice drinks from strange bottles.'*

But all that cynicism [illegible] for Roger Langridge, though. He was the talent behind those awesome Muppet comics from BOOM! What's more, his new series is also from their kids imprint which has proven time and again that it has the grace to treat kids' comics like grown-up's comics: satisfying plot, layered characterization, and excellent art.

The Walrus and the Carpenter are a pair of bumbling con artists, and the king is missing. The royal siblings, Scarlet and Rusty, plot a careful path through Wonderland's court intrigue and rope the rogues into an adventure with cabbages and kings! Best of all, there's no *Alice*.

Oh my stars and garters, I'm sold. It's like somebody found out it was my Un-Birthday! If you're not an oyster, you should buy a copy. If you are an oyster, buy three.

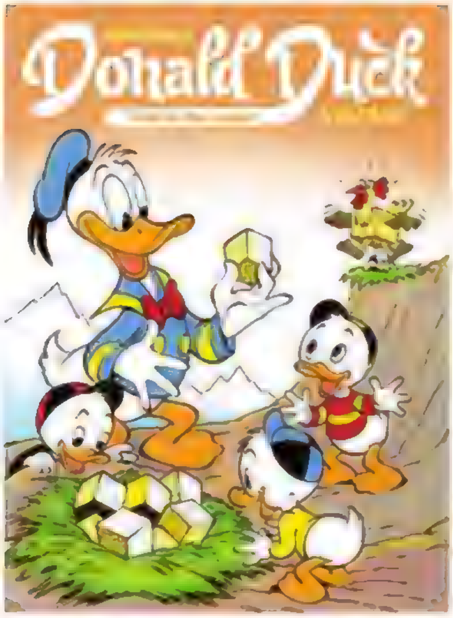
FEATURED ITEM



Not final art

The first volume in a series of affordable, full-color hardcovers collecting the complete works of "The Good Duck Artist"!

Carl Barks' *Donald Duck* and *Uncle Scrooge* comics are considered among the greatest and most timeless artistic and storytelling achievements in the history of the medium. Yet until now, his works have only been reprinted in random comic book iterations or high-end collectors' editions. For the first time, read the complete works of one of the medium's greatest artists in affordably priced hardcover volumes perfect for parents and children alike, meticulously restored and re-colored to ensure the very best reproduction Barks' work has ever received.

Barks began drawing the comic book adventures of Donald Duck in 1942, and continued for the next 30 years, creating some of the most memorable comics and characters ever put to page. This first volume contains over 200 pages of vintage Barks from 1948-1950, including the title story "Lost in the Andes," Barks' personal favorite, wherein Donald and his nephews embark on a Peruvian expedition to solve the mystery of where square eggs come from. Also featured are "The Golden Christmas Tree," "Race to the South Seas," and "Voodoo Hoodoo," as well as over a dozen other stories and strips.

Lost in the Andes also features an introduction by noted Barks scholar Donald Ault, and detailed commentary/annotations for each story at the end of the book, written by the foremost Barks authorities in the world.

Like many women who wrote and drew underground and alternative comix in the '70s, Noomin's contribution to the form has been unjustly overlooked and this book goes toward rectifying that.

THE SOMEDAY FUNNIES

THE SOMEDAY FUNNIES

Abrams ComicArts

As comics became more mainstream in the 1970s, the mainstream media decided to make comics part of their product mix by drawing on the underground and alternative scene with works such as "Little Annie Fanny" in *Playboy* or "Wicked Wanda" in *Penthouse* to comics in *National Lampoon*, *Crawdaddy*, and other pop culture magazines of the period.

A special insert for *Rolling Stone* from writer/editor Michel Choquette and top artists and writers from Barry Windsor Smith, C. C. Beck, René Goscinny, Harvey Kurtzman, Jack Kirby, Moebius, Art Spiegelman, and Gahan Wilson was planned to provide a chronicle of the 1960s. Unfortunately this project was forced to a stop.

Abrams ComicArts' *The Someday Funnies* features 129 previously unpublished strips by 169 of the most influential mainstream and alternative comic creators, completing Choquette's vision in a single oversized hardcover, in the same format made famous by DC's *Wednesday Comics* collection.

This collection will allow those of us who lived through the 60s and those who only know of it second-hand to relive those heady days.

METAMAUS: A LOOK INSIDE A MODERN CLASSIC, MAUS HC
(W/A) Art Spiegelman
The cartoonist re-enters the book that consumed him for over a decade to talk about his survivor parents, the oxymoron of picturing life in a death camp, his guilt-ridden success, racist imagery, and his beloved medium. Witty, intimate, and revelatory, *MetaMaus* tells the story of how and why a work of art is made, as it grapples with the questions that *Maus* has most often evoked: Why the Holocaust? Why mice? Why comics? In this book and its accompanying DVD, Art Spiegelman provides an on-screen reference copy of *The Complete Maus* linked to a large archive of audio interviews with his father, memories of his mother by those who knew her during the war, essays about cartooning, scholarly essays about *Maus*, thousands of preparatory sketches and drafts, scans of his private *Maus* notebooks, and much more. Why aren't you reading this book? Look, I'll break it down for you. We've got a robot who's also a scientist. He fights monsters, sometimes Nazis, a mobile pyramid once, the planet Mars kinda, and also Stephen Hawking (though to be honest that was more of a metaphorical battle). His arch enemies include a brain in a jar, a time traveling dinosaur who isn't, and the spirit of Thomas Edison. Yeah, okay, this is the third issue in the sixth series, but it's still a great jumping on point. Check it: First issue Robo tried to rescue some astronauts. Second issue it all went horribly wrong. James Conrad is the world's first and only superbeing. His powers have made him a celebrity, an idol, and occasionally a hero, if it doesn't conflict with a Late Night appearance. However, when an alien invasion threatens Earth, Conrad — or Mettle, as he's known to his fans — is the first line of defense! But after an alien device transports him to an alternate reality, Mettle finds himself stuck on an Earth littered with superbeings, including a stronger, smarter, and more heroic version of himself — Metalman! HONOEL A. IBARDOLAZA

Twenty-five years ago, the alien Givers came to Earth and brought four giant towers known as Ladders that power the entire planet. Then the Givers disappeared. Due to the alien construction of the Laddertop space stations, only a skilled crew of children could perform the maintenance necessary to keep the stations running.

Back on Earth, competition is fierce to enter Laddertop Academy. Robbi and Azure, the best of friends, are candidates for the Academy. They will become entangled in a dangerous mystery that may help them solve the riddle of the Givers...if it doesn't destroy the Earth first!

Sea monster comedy gets a graphic novel treatment.

Off the coast of California, in the wreck of an atomic submarine, a creature named Grue broods. Someone has thrown Shakespeare's plays into the sea in cola bottles, and by reading them, Grue discovers a sense of his own humanity. Now he no longer wants to eat teenagers. Instead, Grue searches for the person who cast the plays into the sea.

JOE KUBERT: HOW TO DRAW FROM LIFE

VANGUARD PRODUCTIONS

If you want to draw comics, first learn to draw, then learn to draw comics. If you can draw from life you can adapt your abilities to the art of graphic storytelling. In *Joe Kubert: How to Draw from Life*, a comic book industry legend takes you beyond the grid and layout of the four color universe to teach you to appreciate and interpret the human form in art.

Joe Kubert takes his the teaching he has done for 32 years as the head of the Joe Kubert School of Cartoon and Graphic Art and expands it to include the human form. Joe uses his years of drawing as an artist and instructor to teach you how to draw from life. Joe covers gestures, contour drawing, figure in motion, in perspective, along with anatomy and lighting.

Given that this month is our annual How-To-Draw month there are very few artist beyond the artist behind *Sgt Rock*, *Tarzan*, and *Fax from Sarajevo* to command your respect and attention.

Now, back to the drawing board!

ACROSS THIN ICE

SOFAWOLF PRESS

Across Thin Ice is an extraordinary gem of anthropomorphic literature and artwork. Tess Garman tells a riveting story about the Arctic frontier while Teagan Gavet brings it to life with beautifully painted panels. This is one of the most visually stunning works I have read in a long time. Action, adventure, drama, and cuddly animals; this story has it all.

Set in a world similar to ours at the turn of the twentieth century, the Arctic is the last unconquered frontier in the Americas and while the dangers are great, the rewards are many. In this age of exploration, one organization, the Nordguard, takes up the noble goal of providing aid and rescue for all. Responsible for cutting trails, carrying the mail and recovering lost travelers, their work is dangerous and never done. The story centers on Pi and her Nordguard team in their quest to answer the distress call from Tartol Mine. As the team races against the elements and battles relentless pursuers, they realize a greater conspiracy is afoot and their survival rides on thin ice.

"And shepherds we shall be…" Fans of the cult classic movie *Boondock Saints* know the line well, and all lines that follow in the MacManus family prayer. 12 Gauge Comics is releasing the trade to their successful *Boondock Saints: In Nomine Patris* comic book series, which features a foreword by Sean Patrick Flannery, one of the brothers from both *Boondock Saints* movies.

The original movie ranks quite high on my favorite movie list, and while the second fell short of the intrigue of the original film, I am looking forward to the newest thing to be birthed from the franchise, the *In Nomine Patris* trade paperback. A collection of all 6 issues of the *Boondock Saints* comic from 12 Gauge, the *In Nomine Patris* trade paperback is deserving of shelf space in the living rooms of every *Boondock Saints* fan!

THE 21ST CENTURY SUPERHERO SC

Superhero films are one of the most enduring genres of cinema, and their popularity is only increasing in the 21st century. These ten critical essays explore the phenomenon through the lenses of numerous academic disciplines, and cover topics such as the role of globalization in the formation of superhero narratives, the shifting nature of masculinity and femininity in the superhero world and the state of the genre today. Of particular interest is the way these narratives, however fantastic, abstract, futuristic or simplistic, resonate with specific events in the world and function as starting points for discussion of contemporary sociopolitical conflicts. GIFTS FROM THE GODS HC

(W) Lise Lunge-Larsen (A) Gareth Hinds

Did you know that "museums" were initially temples built to worship the nine muses, the goddesses of the arts? That "Janus" was the god of the doorways and hallways, and after him we have named our janitors? Where did these words — and other words, such as chaos, genius, nemesis, panic, echo, and narcissus — come from? From the ancient stories of the Greeks, stories that rang so true and wise that the names of the characters have survived for centuries as words we use every day. The brief stories here not only impart the subtle wisdom of these ancient tales, but make us understand the words, and our own world, more deeply. (STK449474) (C: 0-1-1)

SHATNER RULES: YOUR KEY TO UNDERSTANDING THE SHATNERVERSE HC

(W) William Shatner
William Shatner has had a million lives, it seems, since he played James Tiberius Kirk on *Star Trek*. In fact, he's become an icon adored as much for being William Shatner as for his many starring roles. He's the Priceline Negotiator in a series of over-the-top (and hilarious) commercials, and clips of his appearances on talk shows reciting everything from Cee-Lo's hit song "F**k You" to Sarah Palin's speeches have gone massively viral. With insight, wisdom, and, of course, a heavy dose of humor, Mr. Shatner reveals the truth behind his persona, his own career longevity, his understanding of modern technology, and the benefit of staying true to yourself, no matter what the situation. THE MAGNIFICENT RUFFIANS DVD

One of the Five Venoms' more comedic outings, *The Magnificent Ruffians* trades up the straight-faced heroics of the previous year's Five Deadly Venoms for some kung-fu shenanigans in the best Jackie Chan tradition. This tale of martial arts draws inspiration from Chan's 1978 breakout hits *Snake in the Eagle's Shadow* and *Drunken Master*, but under the watchful eye of legendary Shaw Brothers director Chang Cheh (*One-Armed Swordsman*, *Golden Swallow*) the film rises above mere imitation. Combining kung-fu slapstick with Chang's trademark themes of brotherhood and betrayal — as well as the Venoms' knack for elaborate, no-holds-barred action set pieces — *The Magnificent Ruffians* is justifiably one of the most popular installments of the Five Venoms series. SIGMUND AND THE SEA MONSTERS COMPLETE SERIES DVD

Sigmund and the Sea Monsters was an American children's television series that ran from 1973 to 1975, produced by Sid and Marty Krofft and aired on Saturday Mornings. The show centered on two brothers, Johnny (Johnny Whitaker) and Scott Stuart (Scott Golden), who discover Sigmund (Billy Barty), a friendly young sea monster who had been thrown out by his comically dysfunctional undersea family for refusing to frighten people. The boys hide Sigmund in their clubhouse. (STK450203) (C: 0-1-3)

NUDE FOR SATAN DVD

On its initial release in 1974, *Nude for Satan* was pulled almost immediately from theaters and censored. Now this horror classic is available for the first time, brought back to its original splendor due to its new 35mm digital transfer. This lost classic of Italian gothic horror tells the tale of a man who comes upon a car that has veered off the road with an unconscious woman inside. The man puts the girl in his car, driving her to a nearby villa. There he is greeted by a woman who looks identical to the woman from the car, and she invites them both to say for the night. Pull of black magic, sadism, and stylish lesbianism, Nude for Satan is that rare film that lives up to the promise of its title. (STK450614) (C: 0-1-2)

THE SECRET LIFE: JEFFREY DAHMER DVD

The shocking assaults. The grisly murders. The horrific story you only thought you knew: Carl Crew stars as infamous sex offender, serial killer and cannibal Jeffrey Dahmer, whose 14 year odyssey of evil continues to shock the world. Take a graphic trip inside the mind of a madman, from his sick fantasies and inner torments to his gruesome experiments and depraved "souvenirs." This is the still-controversial film directed by David R. Bowen — and produced two years before Dahmer was beaten to death in prison – whose release outraged the media, the victims' families and the public, yet remains acclaimed as an uncompromising portrait of the monster behind the headlines. CONAN THE BARBARIAN (2011)

The most legendary Barbarian of all time is back this summer! Having thrived and evolved for eight consecutive decades in the public imagination — in prose and graphics, on the big screen and small, in games and properties of all kinds — Conan's exploits in the Hyborian Age now come alive like never before in a colossal 3D action-adventure film. A quest that begins as a personal vendetta for the fierce Cimmerian warrior soon turns into an epic battle against hulking rivals, horrific monsters, and impossible odds, as Conan realizes he is the only hope of saving the great nations of Hyboria from an encroaching reign of supernatural evil. Deftly adapted from the original works of Robert E. Howard and faithful to the mythology and psychology of his iconic character, "Conan the Barbarian" stars Jason Momoa, Rachel Nichols, Stephen Lang, Rose McGowan, Said Taghmaoui, and Ron Perlman. PREVIEWS #275: THE (SORT-OF) LANDMARK ISSUE

This month, ***PREVIEWS*** reaches its 275th issue. Two hundred and seventy-five issues of any publication is something of a landmark, and most of the time such landmarks are treated as special occasions. And rightly so, for any publication to reach such high issue numbers requires dedication, a willing marketplace, skill and talent, and a little luck.

So, here we are, issue #275 of ***PREVIEWS*** and literally 25 months away from our landmark 300th issue (for which we really intend to do something special, just wait!). There have been only a handful of comic series that have lasted long enough to reach and surpass their 275th issues, and depending upon the era in which these comics were published, it went from being "just another issue" to a "landmark" event...

So, whether you consider this issue to be a landmark in publishing (even a "sort-of" landmark for argument's sake), we'd still like to give a tip of the hat to some of comics' *other* members of the "275 Club"!

Action Comics
The Menace of Red and Green Kryptonite

ACTION #275

It was just another day for Superman in *Action* #275, as the Man of Steel was forced to wear a series of silly hats to hide the fact that he had grown a third eye after being exposed to Red and Green Kryptonite by Brainiac...

DAREDEVIL #275

It's a *very bad day* for Matt Murdock in Daredevil #275. With the *Acts of Vengeance* crossover... *crossing over* around him, the "Man Without Fear" must face the threat of Ultron-13. Luckily, he's got the Inhumans on his side... well, when they regain consciousness.

AMAZ. SPIDER-MAN #275

With the Hobgoblin on the offensive, Peter Parker decides that it's time to give up the life in *Amazing Spider-Man* #275. But Mary Jane talks Pete out of hanging up his red-and-blues... and he gets soundly thrashed by Hobby! Marvel marked Spidey's landmark issue with a reprint of his origin from *Amazing Fantasy* #15.

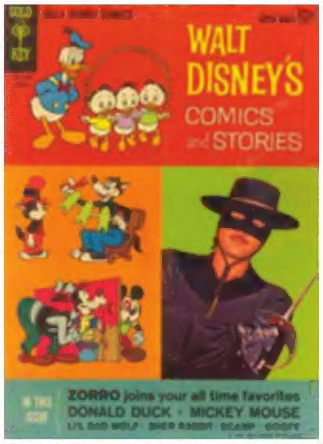
Detective Comics
The Zebra Batman!

DETECTIVE COMICS #275

Batman and Robin's 1960's adventures were freaky even by today's standards, and this one pre-dates the psychedelic "Summer of Love" by *seven years*, as the Caped Crusader gets turned into a "Zebra-Batman" who repels all solid matter. You can't make this stuff up... but apparently they did.



Walt Disney's Comics and Stories
Zorro joins your all time favorites Donald Duck · Mickey Mouse

WALT DISNEY #275

Any issue of *Walt Disney's Comics & Stories* that didn't feature a duck prominently on its cover was a landmark in itself. And issue #275 of the long-running series gave the lion's share of the space to the "Z"-man himself, Zorro, the swashbuckling hero of Old California. *Viva!*

HELLBLAZER #275

In a true landmark issue, John Constantine, Vertigo's very own magic bastard, prepares to marry beautiful young alchemist, Epiphany Greaves, in a double-sized nuptials issue. Of course, there's wedding crashers aplenty, from both sides of the veil... what could *possibly* go wrong?!

ARCHIE 16

LIFE WITH ARCHIE #275

Leave it to Archie to find the most interesting topic in the Riverdale Public Library: Sexy '80s librarians. Was this kid ever *not* a major hound?

ADVENTURE COMICS #275

In another example of DC's crazy storytelling during the '60s, Superboy reveals to a young Bruce Wayne (through a "time-viewer") that they will eventually become the "World's Finest" super-team. And then things get weird as Bruce moves to Smallville and becomes the "Flying Fox" to team-up with Superboy!

THOR #275

When Norse gods clash, they love an audience. So when Thor and his weasel of a half-brother Loki, threw down in *The Mighty Thor* #275, they chose the Land of the Trolls as their arena... and the crowd got ugly. *Ba-dum-bum! Cha!*

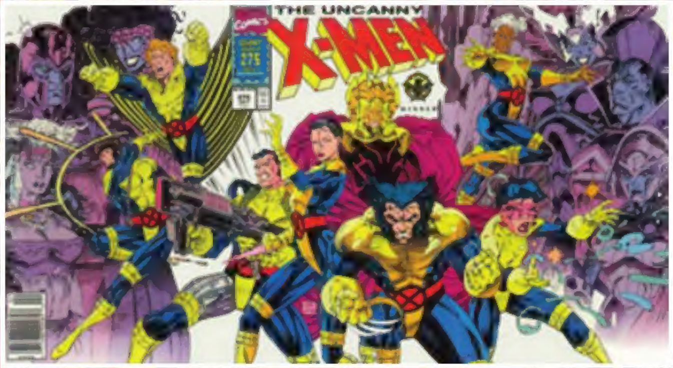
Wonder Woman
THE CLAWS OF THE CHEETAH!

WONDER WOMAN #275

This one gets "landmark" issue status from us for the simple fact that its action takes place in Maryland, home of the ***PREVIEWS*** offices! Cheetah sabotages a dam in Hampstead, causing disaster, and sending Wonder Woman into rescue mode!



THE UNCANNY X-MEN

UNCANNY X-MEN #275

Now this is how you do a landmark issue! Marvel spared no expense (or expanse) for this issue, rocking a wraparound gatefold cover by Jim Lee and Scott Williams! If only we'd had it in the budget for this issue... well, there's always issue #300!
